

**3 axes universal gimbal for all actioncams with a height of 33 up to 51 mm and with LCD BacPac\***

- ▶ For smooth videos that are filmed by hand with your actioncam (without underwater case)
- ▶ Perfect combination of precision engineering and electronics
- ▶ Has a super smooth, brushless motor technology with a robust aluminum structure. Therefore a smooth camera movement can be guaranteed.
- ▶ Firmware updates that are done on a regular basis ensure development of performance and functionality.
- ▶ Very thin design for a good handling while filming
- ▶ As the Rollei eGimbal G4 Plus only weighs 265 grams it can be easily held for a long time in hand.
- ▶ The length of the handle (118 mm) is ergonomically ideal to use the gimbal with only one hand.

## Top Details

- ▶ Stabilized handheld shooting and smooth camera movement even during full action
- ▶ Noise- and brushless motors
- ▶ Infinitely variable controllable vertical 320° tilt
- ▶ Top freedom of movement in all 3 axes (pitch, roll, heading)
- ▶ For shooting on the head, just above the ground, or even for stabilized selfies!
