

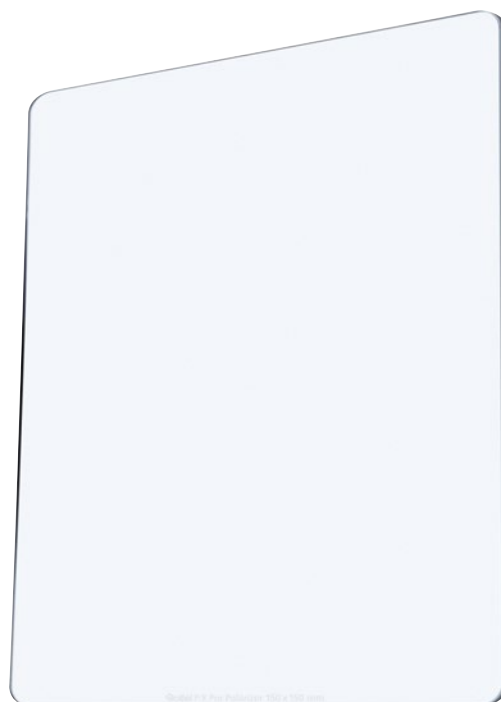

Image without filter

Image with filter

### The best filters Rollei has ever built

- ▶ Polfilters are used to reduce reflections on non-metallic surfaces and to intensify green and blue tones
- ▶ Ultra-fine coating ensures razor-sharp images – even with 150 MP high-end cameras
- ▶ Exemplary colour fidelity – capturing nature as it is seen by the eye
- ▶ Impressively clear images thanks to approx. 99.5 percent absence of reflection
- ▶ Diamond-like scratch resistance – extremely hard surface coating for optimum protection
- ▶ Extremely temperature resistant – tested in scorching heat and freezing cold
- ▶ Original Gorilla®\* glass – legendary resistance and break resistance

### Modus operandi

- ▶ Polarizing filters produce particularly intense colours in blue skies and in the plant world.
- ▶ Polarizing filters suppress unwanted reflections on non-metallic surfaces and enable the viewer of the picture to see through reflective glass and reflective water surfaces.

### Technical Data

<b>Square Filter HD Polarizer</b>	150 x 150 mm
<b>F-Stop Reduction</b>	1 stop
<b>Material</b>	Gorilla®* Glass
