

F:X Pro Neutral Density Filter for Long Exposure Photography

- Five neutral density filters in the intensities ND8, ND64, ND1000, ND2000 and ND4000 made of Gorilla®* glass
- Ultra-fine coating ensures razor-sharp images – even with 150 MP high-end cameras
- Exemplary color fidelity - capturing nature as it is seen by the eye
- Impressively clear images thanks to approx. 99.5 percent absence of reflection
- Diamond-like scratch resistance – extremely hard surface coating for optimum protection
- Extremely temperature resistant – tested in scorching heat and freezing cold
- Original Gorilla®* glass - legendarily resistant and shatterproof
- Extend the exposure time for flowing and wiping motion effects
- Combine the ND filters with each other to get an even longer exposure time or use them separately
- Get rid of people or other moving objects on your photo
- Suitable for long exposure shots in landscape, city, architectural photography and more

Camera, filter holder and tripod head not included.

Filter-Specific Technical Data

Neutral density filter IR	ND8	ND64	ND1000	ND2000	ND4000
Optical density	0.9	1.8	3.0	3.3	3.6
F-stop reduction	3 stops	6 stops	10 stops	11 stops	12 stops
Degree of permeability	12.5%	1.563%	0.098%	0.049%	0.025%

Technical Data

Type of filter	Square filter 100 x 100 mm
Product line	F:X Pro
Material	Gorilla®* glass
Dimensions	100 x 100 mm
Weight	51 g per filter

What's in the Box and Packaging Details

What's in the box	Rollei F:X Pro Master Exposure Set
Packaging dimensions Weight	21 x 15 x 6 cm 0.84 kg
