

The New Generation of the Seastars Q1 Quick Release Plate

- Lightning fast changing and disconnecting of camera from other equipment, e.g. slider, crane or tripod
- Revised mounting screw and added grub screws for even better grip and easier installation
- Flexibly designed screw allows equipment with 1/4" or 3/8" threads to be mounted
- Quick-release plate snaps into place for a secure hold
- For loosening, easy twisting off and lifting off - it doesn't get any faster or easier than this
- Very compact, the iFootage Seastars Q1S fits in the equipment bag
- Due to the shape, the center of gravity is far down, providing no room for movement
- Hardened and stainless steel provides long life and total

Video head etc. not included.
