

Professional LED Headlamp with White Light and Red Light

- Headlamp with 4 different light modes: bright white light, dimmed white light, red light, flashing red light
- Wide range of applications, e.g., in photography, sports or fishing
- White light is optimal for seeing and being seen in the dark
- Red light is optimal for photographers as it provides good night vision while being not visible in photos
- Built-in lithium-ion battery, rechargeable by USB-C cable
- With red/green LED as battery charge level indicator
- Length-adjustable, elastic headband from approx. 34 cm to approx. 65 cm allows individual adjustment to head circumference
- 4 different tilt angles of the LED Headlamp allow individual adjustment
- Space-saving and lightweight – fits in any (photo) equipment
- USB-C cable included

Technical Data

Power	3.0 W
