

EU REACH Regulation 1907/2006: Substance Information according to Article 33

The EU Regulation (EC) No 1907/2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemical (REACH) requires communication of information about certain substances in articles supplied on the Community market.

According to REACH article 33, suppliers have to inform about presence of a 'substance of very high concern' (SVHC) of the 'candidate list' for authorization, if contained in articles and / or packaging materials concentrations above 0.1 % w/w.

According to article 59 (1, 10) of the Regulation (EC) No 1907/2006 (REACH), an updated candidate list was published by the European Chemicals Agency (ECHA): <http://echa.europa.eu/web/candidate-list-table/>

With regards to the candidate list mentioned above, we inform the below model including the packaging materials contain no substances of the current candidate list valid on the day of signature of this document in a concentration above 0.1% weight by weight.
